

## ATIKA ADELA

UI/UX Designer

Tangerang Selatan, Indonesia • 082362373200 • atikaadela@gmail.com

### Profile

Creative and detail-oriented UI/UX Designer with over 3 years of experience crafting user-centric digital products for both web and mobile platforms. Skilled in wireframing, prototyping, user research, and high-fidelity design, with a strong eye for aesthetics and usability. Proficient in tools like Figma, Adobe Illustrator, Photoshop, CorelDRAW, and Blender. Adept at turning complex ideas into intuitive, visually engaging experiences and delivering impactful design solutions through clear communication and collaboration.

### Employment History

#### UI/UX Designer – PT. Noxus Ideata Prima

Mei 2025 - Present

- Design and deliver intuitive, user-centered interfaces for web and mobile platforms.
- Translate ideas into wireframes, prototypes, and Hi-fidelity UI that align with business goals.
- Collaborate with developers and product managers to ensure smooth implementation and great user experience.
- Build scalable design systems to keep visuals consistent and efficient.
- Gather user feedback to refine and improve designs continuously.

#### Freelance UI/UX Designer – PT Pupuk Indonesia (Persero)

Mei 2025 – Present

- Designed and enhanced internal desktop systems including Asset Management, Risk Management, and Tata Kelola Terintegrasi applications.
- Simplified complex governance and operational workflows into clear, structured, and user-friendly interfaces.

#### Freelance UI/UX Designer – Self Employed

2025 – Present

- Designed UI/UX for company profile website (STIKes Mitra Keluarga) and a wellness-based Subliminal Massage application (desktop & mobile).
- Handled 2 logo design projects for Unilever-related brand/campaign initiatives.
- Created user flows, wireframes, high-fidelity UI, and visual assets with strong attention to clarity and brand consistency.

#### Freelance UI/UX Designer – PT. Blue Eyed Global Indonesia

Aug 2025 – Oct 2025

- Redesigned the web and mobile experience for an AI-powered advertising platform. Focused on creating a minimalist, clear, and easy-to-navigate interface, while proposing new color combinations and style elements to enhance user experience with a balance of simplicity and elegance.

#### Freelance UI/UX Designer – Lezenda

Aug 2024 – Mar 2025

- Handled and designed 8 projects across mobile and web platforms, including AI and health tech, loyalty apps, etc.
- Led end-to-end design — from user research and wireframes to high-fidelity prototypes and design systems — ensuring clarity, usability, and consistency.
- Created pitch decks and product mockups to help clients communicate ideas visually and present their products effectively to stakeholders and investors.
- Collaborated closely with clients and developers to align design solutions with business goals and user needs.

#### Event & Promotion Coordinator – PT. Greenland Garden Realty

Jul 2024 – Oct 2024

##### Event Planning & Coordination:

- To increase brand visibility and engagement, I planned, managed, and carried out promotional campaigns and events on print and social media platforms.
- Created plans, budgets, and event themes for property marketing and exhibitions while supervising the entire event's implementation.
- Coordinated with both internal and external teams to guarantee a flawless event that was completed on schedule and within budget.

#### Content & Social Media Management:

- To increase brand awareness and engagement, social media content strategies were created and put into action, mostly for Instagram.

Produced marketing collateral for landed house, apartments, and condominiums, such as flyers, brochures, and property project documentation

#### Promotion & Marketing Execution:

- Created and carried out marketing strategies to increase interest and event attendance, including social media posts and digital advertisements.
- Worked together with the creative team to create visual content that complemented the event's goals and brand identity.

#### Budget & Administrative Management:

- Created and oversaw event budgets to guarantee cost effectiveness.
- Handled procurement for event requirements and negotiated the best prices with providers.

### UI Designer – PT. Enam Dua Teknologi, South Jakarta

May 2023 – May 2024

- Managed 15 projects in a single year, exhibiting dependability and effectiveness.
- Wireframes, prototypes, and visual user interfaces were created in order to design user interfaces for web and mobile applications that are both intuitive and aesthetically pleasing.
- In order to ensure consistency and usability across platforms, I worked with cross-functional teams to transform project objectives into design solutions.
- To improve designs, I carried out usability testing and user research while keeping abreast of market developments and new technological advancements.
- Successfully managed several tasks and due dates while retaining originality and professionalism.

### Junior Engineer – PT. Enam Dua Teknologi, Medan

Mar 2023 – May 2023

- Laravel PHP and React JS were used to create dynamic and responsive websites.
- Collaborating with senior engineers and cross-functional teams to understand project requirements and contribute to the design and architecture of web applications.
- React JS components were used to implement front-end interfaces and user interactions, and Laravel backend APIs were integrated.

### UI/UX Designer – PT. Kaizenesia Pasifik Indonesia, Medan

Dec 2022 – Mar 2023

- To improve the user experience, usability testing, user research, and feedback analysis were carried out.
- Created user interfaces for web apps that are both aesthetically beautiful and simple to use.
- Worked together with developers and project managers to create innovative and project-specific design solutions.
- Created designs and high-fidelity prototypes while adhering to UI/UX best practices.

### Internship – North Sumatra High Prosecutor's Office, Medan

Jul 2021 – Aug 2021

- Assisted in inputting data and maintaining records during my internship at the North Sumatra High Prosecutor's Office, ensuring accuracy and confidentiality in handling sensitive information.

### D3 Informatics Engineering Laboratory Assistant – Universitas Sumatera Utara, Medan

Aug 2020 – Jul 2022

- In courses like Programming Basics, Probability & Statistics, Programming Fundamentals, Web Programming, GIS, Decision Support Systems, and Artificial Intelligence, I helped plan and lead practicum sessions.
